

Kettles
Country house hotel
elegance and tradition in harmony

Kettles Country House Hotel is a family run hotel which was officially opened in 2007. We pride ourselves on creating menus around locally sourced produce. We are firmly committed to supporting sustainable local Irish produce and serve the finest selection of meats and produce that Ireland has to offer.

All of our dishes may contain ingredients or trace elements of certain products that may cause an allergic reaction to someone with a hypersensitive immune system. We have highlighted on a separate menu where an ingredient occurs. Please alert your server.
